58s	Three years ago, we helped 1,000 blind people see again.	Three years ago, we helped 1,000 blind people see again.

1:02 What we discovered was that for most of the blind people in the world,
1:05 all that they needed was a simple 10 minute cataract surgery.
1:08 If you're wondering how this surgery can allow people to see again,
1:11 it's because the lens in their eye got so cloudy
1:13 that they can't see through it.
1:14 So, the surgeon uses a tiny vacuum to suck up the clouded lens
1:17 and replace it with an artificial one.
1:19 The surgery is that simple,
1:21 and it's something that many of these people have waited years for.
1:26 You've saved my job.
1:27 You've saved our dreams.
1:29 You've saved our happiness.
1:32 This is not only helping people go back to work,
1:34 but it is also giving people the opportunity to read and write again.
1:38 And now, I can be able to revise with my children.
1:41 Now, I can be reading the Bible.
1:44 [Jimmy] And for others who have waited decades,
1:46 the world suddenly feels clearer for them.
1:48 I want to see the world, how it is.
1:51 I was in another world, I was just like half there.
1:54 [Jimmy] Before their surgeries, many patients saw the world like this.
1:58 And now, it looks like this!
2:00 I'm back to life!
2:01 If you don't have a vision, you have no life.
2:05 My vision is back.
2:07 Thank you so much.
2:08 [Jimmy] A simple 10 minute surgery
2:10 has relieved hundreds of these people of years of pain and discomfort.
2:17 But in more rural parts of Kenya,
2:19 access to health care is far more difficult.

What we discovered was that for most of the blind people in the world,
all that they needed was a simple 10 minute cataract surgery.
If you're wondering how this surgery can allow people to see again,
it's because the lens in their eye got so cloudy
that they can't see through it.
So, the surgeon uses a tiny vacuum to suck up the clouded lens
and replace it with an artificial one.
The surgery is that simple,
and it's something that many of these people have waited years for.
You've saved my job.
You've saved our dreams.
You've saved our happiness.
This is not only helping people go back to work,
but it is also giving people the opportunity to read and write again.
And now, I can be able to revise with my children.
Now, I can be reading the Bible.
[Jimmy] And for others who have waited decades,
the world suddenly feels clearer for them.
I want to see the world, how it is.
I was in another world, I was just like half there.
[Jimmy] Before their surgeries, many patients saw the world like this.
And now, it looks like this!
I'm back to life!
If you don't have a vision, you have no life.
My vision is back.
Thank you so much.
[Jimmy] A simple 10 minute surgery
has relieved hundreds of these people of years of pain and discomfort.
But in more rural parts of Kenya,
access to health care is far more difficult.

2:23 Some of these patients,
2:24 we're having to pick up from hundreds of miles away.

2:26 They live in remote villages near no hospitals,

2:28 and if we didn't send an ambulance to pick them up,

2:30 they never would've received help in their entire lives.

2:33 All right, that's good.

2:34 Let's get him in. Let's help him out.

2:35 This hospital in the Masai Mara has done almost 300,000 surgeries.

2:39 And it's one of the only hospitals in the area to do so.

2:42 At the forefront of this operation is Carol,

2:44 who you may recognize from helping us feed hundreds of children last year.

2:48 We are seeing people from all over the country.

2:51 People traveling eight hours drive to be here,

2:54 to be able to get these life changing surgeries.

2:57 Majd is here at Baraka,

2:58 where we will be doing the 25 most complex surgeries.

3:01 So you've waited one whole year to get this surgery?

3:04 Yeah, it's because I don't have money.

3:06 [Jimmy] And thanks to these surgeries,

3:07 many of these patients are finally getting their lives back.

3:10 Everyone in my family will be so grateful.

3:14 What is the first thing that you're gonna do after the surgery?

3:17 -Work? -Yeah.

3:18 [Carol] People who've suffered with conditions for years or even decades,

3:21 now are going to get an opportunity of a free surgery.

3:24 [Jimmy] Baraka focused on surgeries

3:26 for the two most common conditions in the area:

3:29 hernias...

Some of these patients,
we're having to pick up from hundreds of miles away.

They live in remote villages near no hospitals,

and if we didn't send an ambulance to pick them up,

they never would've received help in their entire lives.

All right, that's good.

Let's get him in. Let's help him out.

This hospital in the Masai Mara has done almost 300,000 surgeries.

And it's one of the only hospitals in the area to do so.

At the forefront of this operation is Carol,

who you may recognize from helping us feed hundreds of children last year.

We are seeing people from all over the country.

People traveling eight hours drive to be here,

to be able to get these life changing surgeries.

Majd is here at Baraka,

where we will be doing the 25 most complex surgeries.

So you've waited one whole year to get this surgery?

Yeah, it's because I don't have money.

[Jimmy] And thanks to these surgeries,

many of these patients are finally getting their lives back.

Everyone in my family will be so grateful.

What is the first thing that you're gonna do after the surgery?

-Work? -Yeah.

[Carol] People who've suffered with conditions for years or even decades,

now are going to get an opportunity of a free surgery.

[Jimmy] Baraka focused on surgeries

for the two most common conditions in the area:

hernias...

3:32 and thyroid disorders.

3:39 If we didn't film this video, how many of the thousand surgeries

3:42 we're doing here in Kenya would've happened?

3:44 None!

3:45 Is that not freaking crazy to you guys?

3:47 Everyone you see in this video, their lives being changed...

3:50 without this video, wouldn't have happened.

3:52 One of these patients is Mercy.

3:54 A young single mother who made the long journey all on her own

3:57 to treat a growing hernia.

3:59 How long have you had this hernia?

4:00 Three years.

4:01 Have you tried to get it treated before?

4:03 I could not afford. I am very nervous.

4:07 So, Mercy is one of our patients

4:08 and surgery is something that is, uh...

4:12 it's very hard for families,

4:14 and they always just want to be around to support.

4:17 But for Mercy, she's all by herself

4:20 because her family could not afford to be here.

4:22 Even for Mercy, they had to borrow money for her to be able to come.

4:25 So, it's just so hard seeing her by herself.

4:28 You know, I come from quite the distance,

4:31 but everyone here has been good to me.

4:35 I am alone, but I don't feel lonely.

4:38 I feel loved, cared for,

4:40 and I'm very happy, very grateful.

4:45 [Jimmy] 'Cause Mercy's operation is more complex, it'll take longer.

4:48 So, we will come back to her story later

4:50 with a surprise that you won't believe.

4:53 Meanwhile, at the surgical camps,

4:55 the doctors were completing more eye surgeries.

and thyroid disorders.

If we didn't film this video, how many of the thousand surgeries

we're doing here in Kenya would've happened?

None!

Is that not freaking crazy to you guys?

Everyone you see in this video, their lives being changed...

without this video, wouldn't have happened.

One of these patients is Mercy.

A young single mother who made the long journey all on her own

to treat a growing hernia.

How long have you had this hernia?

Three years.

Have you tried to get it treated before?

I could not afford. I am very nervous.

So, Mercy is one of our patients

and surgery is something that is, uh...

it's very hard for families,

and they always just want to be around to support.

But for Mercy, she's all by herself

because her family could not afford to be here.

Even for Mercy, they had to borrow money for her to be able to come.

So, it's just so hard seeing her by herself.

You know, I come from quite the distance,

but everyone here has been good to me.

I am alone, but I don't feel lonely.

I feel loved, cared for,

and I'm very happy, very grateful.

[Jimmy] 'Cause Mercy's operation is more complex, it'll take longer.

So, we will come back to her story later

with a surprise that you won't believe.

Meanwhile, at the surgical camps,

the doctors were completing more eye surgeries.

- 4:58 Yesterday, I couldn't see, but today I am seeing.
- 5:05 I'm excited, I don't have the feeling the way I was feeling.
- 5:09 I'm celebrating, now I can see!
- 5:15 [Jimmy] One person whose life
- 5:16 will completely change after surgery is Raphael.
- 5:18 I was not able to drive a vehicle since I am a driver.
- 5:22 Driving in Nairobi is quite busy, you have a lot of light at night.
- 5:26 I was not able to see well.
- 5:29 [Jimmy] Because Raphael cannot drive at night,
- 5:31 he loses out on a large portion of his income as a bus driver.
- 5:34 So, having this surgery will mean he will now have the opportunity
- 5:38 to provide more money for his family.
- 5:52 We were so excited that Raphael could go back to work,
- 5:54 we wanted to join him on one of his trips.
- 6:03 The driving part of it now is more easier than before.
- 6:08 My vision, it's 100% more better.
- 6:13 Thank you, MrBeast!
- 6:15 [Jimmy] Within minutes, hundreds of people just like Raphael,
- 6:18 who have waited years for a surgery,
- 6:20 had their lives completely changed.
- 6:32 May God bless you.
- 6:33 Thank you very much.
- 6:34 You have already affected so many young people and elderly people.
- 6:39 [Jimmy] Back in the Masai Mara,
- 6:40 we wanted to visit an important person in the community
- 6:43 who has already received her surgery.
- 6:45 Hi, how are you?
- 6:46 -I'm fine. -I'm Majd.
- 6:48 [Jimmy] Mama Jane, a grandmother,
- 6:49 who has waited 20 years for a thyroid surgery.
- Yesterday, I couldn't see, but today I am seeing.
- I'm excited, I don't have the feeling the way I was feeling.
- I'm celebrating, now I can see!
- [Jimmy] One person whose life will completely change after surgery is Raphael.
- I was not able to drive a vehicle since I am a driver.
- Driving in Nairobi is quite busy, you have a lot of light at night.
- I was not able to see well.
- [Jimmy] Because Raphael cannot drive at night,
- he loses out on a large portion of his income as a bus driver.
- So, having this surgery will mean he will now have the opportunity
- to provide more money for his family.
- We were so excited that Raphael could go back to work,
- we wanted to join him on one of his trips.
- The driving part of it now is more easier than before.
- My vision, it's 100% more better.
- Thank you, MrBeast!
- [Jimmy] Within minutes, hundreds of people just like Raphael,
- who have waited years for a surgery,
- had their lives completely changed.
- May God bless you.
- Thank you very much.
- You have already affected so many young people and elderly people.
- [Jimmy] Back in the Masai Mara,
- we wanted to visit an important person in the community
- who has already received her surgery.
- Hi, how are you?
- I'm fine. -I'm Majd.
- [Jimmy] Mama Jane, a grandmother,
- who has waited 20 years for a thyroid surgery.

- 6:52 Before my surgery, I was tired, I didn't breathe very well.
- 6:55 When I heard about the surgery at Baraka Hospital,
- 6:58 I was very, very excited.
- 7:00 [Jimmy] Mama Jane spent 20 years living with a thyroid condition
- 7:03 until she finally got her surgery only a month ago at Baraka Hospital.
- 7:06 So now that you have recovered, what kind of work do you do?
- 7:09 I am cooking for my family.
- 7:11 I am cleaning my compound.
- 7:13 -Can you show me around? -Yes.
- 7:14 Can you show me what that looks like?
- 7:15 We're going on a tour with Mama Jane!
- 7:16 -Woo! -Woohoo!
- 7:18 I want to dig.
- 7:19 -Are you ready? -I'm ready.
- 7:20 Stand here?
- 7:21 Yes. Let us start.
- 7:24 Yes. I want you to finish all the land.
- 7:27 -Huh? Finish all the land today? -Yes.
- 7:28 -We just work hard today. -Yes. If you sweat, it's good.
- 7:31 You are stronger than me, Mama.
- 7:33 And I was in the gym.
- 7:36 I know. I'm funny, Mama Jane.
- 7:37 -I know. -Me too!
- 7:38 You are funny! I know.
- 7:40 It sounds like Mama Jane is a very important leader
- 7:42 to this whole community.
- 7:43 Not just her family.
- 7:45 A lot of these people here rely on you.
- 7:46 Yes, because I'm doing something well.
- 7:48 [Jimmy] And because of Mama Jane's impact on her community,
- 7:50 we wanted to surprise her with something extra special.
- 7:53 Mama Jane doesn't know this, but we're gonna give her a cow and a goat.
- Before my surgery, I was tired, I didn't breathe very well.
- When I heard about the surgery at Baraka Hospital,
- I was very, very excited.
- [Jimmy] Mama Jane spent 20 years living with a thyroid condition
- until she finally got her surgery only a month ago at Baraka Hospital.
- So now that you have recovered, what kind of work do you do?
- I am cooking for my family.
- I am cleaning my compound.
- Can you show me around? -Yes.
- Can you show me what that looks like?
- We're going on a tour with Mama Jane!
- Woo! -Woohoo!
- I want to dig.
- Are you ready? -I'm ready.
- Stand here?
- Yes. Let us start.
- Yes. I want you to finish all the land.
- Huh? Finish all the land today? -Yes.
- We just work hard today. -Yes. If you sweat, it's good.
- You are stronger than me, Mama.
- And I was in the gym.
- I know. I'm funny, Mama Jane.
- I know. -Me too!
- You are funny! I know.
- It sounds like Mama Jane is a very important leader
- to this whole community.
- Not just her family.
- A lot of these people here rely on you.
- Yes, because I'm doing something well.
- [Jimmy] And because of Mama Jane's impact on her community,
- we wanted to surprise her with something extra special.
- Mama Jane doesn't know this, but we're gonna give her a cow and a goat.

- 7:57 Oh, this is gonna be great. I can't wait to see her reaction.
- 7:59 -Mama Jane? -Woo!
- 8:00 -I got you a surprise! -[yelling excitedly]
- 8:02 I got you a surprise!
- 8:04 Mama Jane, these are for you.
- 8:05 [Majd] These are for you.
- 8:07 It's mine?
- 8:07 [Majd] These are yours!
- 8:08 You give back to a lot of people. A lot of people depend on you.
- 8:11 Thank you so much.
- 8:12 Thank you so much. Thank you.
- 8:14 [Jimmy] This cow and goat mean income and stability
- 8:17 for Mama Jane's community long after we're gone.
- 8:19 [Mama Jane] So I can sell milk, tea, make tea for my grandchildren.
- 8:23 Send them to school.
- 8:25 [crying] So much thank you.
- 8:30 As you can imagine, paying for a thousand surgeries,
- 8:33 driving people in from hundreds of miles away,
- 8:35 and providing service to all these people is very expensive.
- 8:38 Which is why I want to say a very quick thank you to Click Health
- 8:41 for stepping up and partnering with us on this project.
- 8:43 Without Click Health, we would not have been able to provide
- 8:46 these 1,000 life-changing surgeries you're seeing in this video here in Kenya.
- 8:50 And credit where it's due, they didn't just help financially.
- 8:52 They also rolled up their sleeves, came to Kenya, and helped.
- 8:55 Genuinely, thank you so much Click Health for helping make this a reality.
- 8:58 It wouldn't have been possible without you,
- 9:00 and you guys helped change a lot of lives,
- 9:02 which we need to keep doing.
- Oh, this is gonna be great. I can't wait to see her reaction.
- Mama Jane? -Woo!
- I got you a surprise! -[yelling excitedly]
- I got you a surprise!
- Mama Jane, these are for you.
- [Majd] These are for you.
- It's mine?
- [Majd] These are yours!
- You give back to a lot of people. A lot of people depend on you.
- Thank you so much.
- Thank you so much. Thank you.
- [Jimmy] This cow and goat mean income and stability
- for Mama Jane's community long after we're gone.
- [Mama Jane] So I can sell milk, tea, make tea for my grandchildren.
- Send them to school.
- [crying] So much thank you.
- As you can imagine, paying for a thousand surgeries,
- driving people in from hundreds of miles away,
- and providing service to all these people is very expensive.
- Which is why I want to say a very quick thank you to Click Health
- for stepping up and partnering with us on this project.
- Without Click Health, we would not have been able to provide
- these 1,000 life-changing surgeries you're seeing in this video here in Kenya.
- And credit where it's due, they didn't just help financially.
- They also rolled up their sleeves, came to Kenya, and helped.
- Genuinely, thank you so much Click Health for helping make this a reality.
- It wouldn't have been possible without you,
- and you guys helped change a lot of lives,
- which we need to keep doing.

- 9:03 Before we reveal the surprise we have in store for Mercy,
- 9:06 we brought the entire community together at Baraka for one massive surprise.
- 9:11 You ready?
- 9:12 Carol, can you please take off your blindfold?
- 9:16 Boys, open up the gates.
- 9:21 [Jimmy] We delivered a truckload's worth of essential medicines and equipment,
- 9:24 so Baraka Hospital can continue helping those that need it most.
- 9:27 Offloading.
- 9:28 Being able to receive medical supplies and equipment
- 9:32 that we really need as a hospital
- 9:34 is one of the best things that has happened to us this year.
- 9:36 The community is very excited
- 9:37 because they know these supplies are going to benefit them,
- 9:41 and so, they're celebrating.
- 9:42 They're really appreciative and very happy.
- 9:55 [Jimmy] And finally, it's time to reveal the surprise
- 9:57 for patient one thousand.
- 9:59 We're gonna be doing something incredible.
- 10:01 Mercy has no idea that we're bringing her family out here today.
- 10:04 We're surprising her with not only her family,
- 10:06 but a few other gifts.
- 10:29 Mercy, we got you a little gift.
- 10:31 There's some stuff here.
- 10:32 [Jimmy] Mercy had told us that before her hernia,
- 10:35 she loved playing soccer.
- 10:36 After my surgery, I will be really happy to go back to my team.
- 10:42 Got you something.
- 10:44 Yeah.
- 10:45 We also have one more gift.
- Before we reveal the surprise we have in store for Mercy,
- we brought the entire community together at Baraka for one massive surprise.
- You ready?
- Carol, can you please take off your blindfold?
- Boys, open up the gates.
- [Jimmy] We delivered a truckload's worth of essential medicines and equipment,
- so Baraka Hospital can continue helping those that need it most.
- Offloading.
- Being able to receive medical supplies and equipment
- that we really need as a hospital
- is one of the best things that has happened to us this year.
- The community is very excited
- because they know these supplies are going to benefit them,
- and so, they're celebrating.
- They're really appreciative and very happy.
- [Jimmy] And finally, it's time to reveal the surprise
- for patient one thousand.
- We're gonna be doing something incredible.
- Mercy has no idea that we're bringing her family out here today.
- We're surprising her with not only her family,
- but a few other gifts.
- Mercy, we got you a little gift.
- There's some stuff here.
- [Jimmy] Mercy had told us that before her hernia,
- she loved playing soccer.
- After my surgery, I will be really happy to go back to my team.
- Got you something.
- Yeah.
- We also have one more gift.

- 10:49 We know that you had to take some time off of school.
- 10:51 So on the behalf of our team, we want you to stay in school.
- 10:56 And we're going to pay for the rest of your tuition for your school.
- 11:00 Really?
- 11:01 Yes. Yes, really.
- 11:02 Thank you so much.
- 11:03 You are so, so welcome.
- 11:04 These are patients who have suffered with conditions for decades.
- 11:07 So many years, people who are not able to afford surgeries.
- 11:10 But now, with these free surgeries that you've offered to them,
- 11:13 they've been able to get a new lease of life.
- 11:16 You've not just touched the patients' lives,
- 11:18 you've touched their families. You've touched their communities.
- 11:22 And on behalf of all the patients, on behalf of Baraka hospital,
- 11:25 I want to say a big thank you to you, Jimmy, and to Beast Philanthropy.
- 11:29 Asante sana.
- 11:30 When we started this project,
- 11:31 I wasn't super certain we were gonna be able to finish.
- 11:33 I mean, these weren't easy surgeries.
- 11:35 I mean, some of these were massive operations.
- 11:37 But thanks to Carol, everyone you see behind us,
- 11:40 and the entire team at Beast Philanthropy,
- 11:41 we were able to pull it off, so thank you.
- 11:43 Comment down below how much you appreciate Carol,
- 11:45 and just thank you so much for watching this video,
- 11:47 because without watching Beast Philanthropy,
- 11:49 you know, we wouldn't be able to change lives like this,
- We know that you had to take some time off of school.
- So on the behalf of our team, we want you to stay in school.
- And we're going to pay for the rest of your tuition for your school.
- Really?
- Yes. Yes, really.
- Thank you so much.
- You are so, so welcome.
- These are patients who have suffered with conditions for decades.
- So many years, people who are not able to afford surgeries.
- But now, with these free surgeries that you've offered to them,
- they've been able to get a new lease of life.
- You've not just touched the patients' lives, you've touched their families. You've touched their communities.
- And on behalf of all the patients, on behalf of Baraka hospital,
- I want to say a big thank you to you, Jimmy, and to Beast Philanthropy.
- Asante sana.
- When we started this project,
- I wasn't super certain we were gonna be able to finish.
- I mean, these weren't easy surgeries.
- I mean, some of these were massive operations.
- But thanks to Carol, everyone you see behind us,
- and the entire team at Beast Philanthropy, we were able to pull it off, so thank you.
- Comment down below how much you appreciate Carol,
- and just thank you so much for watching this video,
- because without watching Beast Philanthropy,
- you know, we wouldn't be able to change lives like this,

11:51 and hopefully, we can do a lot more projects like this this year.

and hopefully, we can do a lot more projects like this this year.

11:54 I'm so freaking excited!

I'm so freaking excited!
